Programming: HTML, CSS, JavaScript, Python

Tech Stack: React, Node.js, Express.js

Database: MySQL

Tools: Git, GitHub, Postman

Soft Skills: Data Cleaning, Problem Solving,
Team Collaboration, Critical Thinking

Additional: Machine Learning, Big Data

ABOUT ME

To pursue a career as a Web Developer, applying my skills in HTML, CSS, JavaScript, Python, React.js, Node.js, and database management to build responsive and efficient web applications while continuously learning new technologies.

WORK EXPERIENCE

Digital HR Intern 4 Months

AI Smart Dashboard

- Developed a web dashboard (React & Node.js) to track employee AI usage.
- Implemented interactive charts where users can click to query the AI for data insights.
- Engineered AI responses with both text summaries and Text-to-Speech (TTS) audio.

Automated HR Reporting Tool

- Built a Node.js web tool to dynamically convert user input data into standardized PowerPoint slides.
- Streamlined profile reporting, reducing manual slide preparation time by over 90%

Poultry Sales & Workforce Analytics (SWP)

- Utilized poultry sales metrics to model and forecast future workforce demands, ensuring optimal staffing alignment with business revenue.

Applicant Tracking System (ATS) Developer

- Built an automated recruitment system to parse candidate data and match resumes with job descriptions, reducing screening time.

HONORS & AWARDS

Very Good Presentation Award (AUCC 2026) | Feb 2026

- Awarded "Very Good" for oral presentation on "Vehicle Driver Risky Behavior Detection using YOLO and MediaPipe Pose".
